

Portable Test System (field, lab or line)

Transforming the Way You Test !

To complement our large scale laboratory test equipment, we now offer a portable PC based automated fenestration test kit. This precision test equipment is designed for the rigors of field, laboratory and quality inspection applications. Perform R & D, certification and code compliance testing with equipment designed and manufactured by ATS.

Key Features to consider:

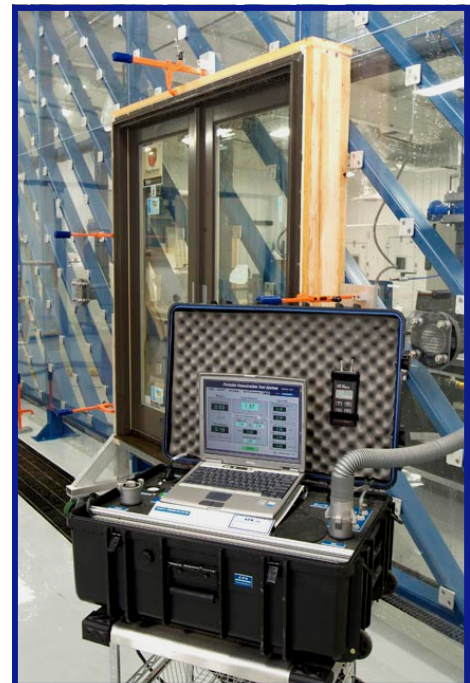

- *Extremely user-friendly software for air infiltration & water penetration testing*
- *Automated pressure control allows you to focus on the product under test*
- *Robust equipment designed for shock, vibration and the rigors of field work*
- *Flight approved case with wheels and handle*
- *Manual operation mode*
- *Digital manometer for equipment checks*
- *Airflow automatically corrected to standard conditions using integral temperature, barometric pressure and relative humidity transducers*
- *Auxiliary blower power outlet for additional capacity*
- *English / Metric units selectable*
- *Report generation software included*
- *Plug & Play USB interface*

Other Products and Systems:

- *Air-Water-Structural System*
- *Test Wall System*
- *Spray Rack System (mobile / stackable)*
- *Digital Deflection Measurement System*
- *Water Recycling System*
- *Impact Cannon (large / small missile)*
- *Hurricane Cycling System*

Our Mission Statement

“To Deliver with Integrity -
High Quality, Cost Effective,
User-Friendly Automated Test
Equipment.”

PORTABLE TEST KIT
*shown with laptop computer
running user-friendly software*

**PORTABLE AIRFLOW
CALIBRATION KIT**
*includes 3 NIST traceable
orifice plates and wheeled flight
approved case*
